LAMPO GREEN

Many functions in a single machine.
Versatile, practical, safe.

The patented multifunctional pump unit LAMPO can be used simultaneously as a generator and as a pump with the ability to vary the flow rates and pressures through an inverter. LAMPO Green guarantees the draft of water from wells with a minimum diameter of

180 mm with a depth of up to **50 m** and pumps from **25 to 500 m³/h**. Frames wheeled tank of **1000 l** and SUPERSILENT canopy standard. Available in different versions: with tubes or hose according to the requirements.

**MOTOR PUMP
MP 09 ICOR
600 m³/h @ 9 bar**

Modern irrigation today knows no borders, thanks to the Euromacchine motor pump with Cornell pumps of the **Clear Water** series. Exclusive in the European Union to ensure the best performance in all working conditions. And the extensive cultivation opens in new records of power and efficiency: the highest performance of the market, large flow rates from **200 to 1200 m³ / h** and pressures from **2 to 10 bar**. The most durable, reliable machine with the strongest performances in the agriculture sector which can rely. Irrigation at its full strength.

MOTOR PUMPS FOR IRRIGATION

Customizable for every type of flow

Removable pump units, ideal for irrigation in all working conditions guaranteed for maximum efficiency and reliability. All groups are highly customizable, with power and performance depending on the needs of use.

Each model is also available in the **Supersilent** version, with soundproofing cabin tested up to **70 d (B)** and muffler for residential use.

SELF PRIMING MOTOR PUMP SETS

SUPERTANK

High performance, low fuel consumption.

Supertank is an innovative solution in the field of irrigation, allowing the self priming of the centrifugal single and multistage pumps. In cooperation with R & D, the Supertank system guarantees the filling of the suction complexes in a simple and fast way. Thanks to an elementary physical principle, in a few seconds, the system ejects the air intake and triggers the pump within seconds.
